Re: Setting a tournament game to run beyond the end of the year for games using the T5E tournament CD.

When setting a tournament game to begin before the end of the year and continue into the next year, you will not be able to use the time and date fields to set the tournament end time.

To set a tournament game to run beyond the end of the year, follow the instructions below in the Tournament Setup screen.

1. Select the desired tournament game(s).
2. Set the TOURNAMENT STATUS to "DELAYED."
3. Select the desired TOURNAMENT DURATION.
4. Exit the Tournament Setup Screen.
5. Exit the Operator Setup.

The tournament will now start at the time displayed in the setup screen and continue for the duration set.

If you want the tournament to end on a specific day and/or at a specific time, re-enter the Tournament Setup screen and set the date and/or time you want the current tournament to end.
