Re: Component End-of-Life Notice for Force Radion 15" Touchscreens

The supplier for the Force Radion 15" Touchscreen (Merit Part Number: EC9850-10) has announced an end-of-life on this component. Merit has offered a last-time buy to its distributors so they can stock touchscreens for future support.

For those customers running Force Radions, please contact your distributor by February 8, 2008 to order quantities of the Radion 15" touchscreen.

After supporting Force Radion for more than 3 years post-production, Merit maintains its strong track record of providing support for operators running older systems.

If you have any questions, please contact Merit Customer Service and Technical Support by phone at 215-826-1400 or 800-523-2760, or by e-mail at TechCenter@meritgames.com.
