Re: Component End-of-Life Notice for 200-Watt Power Supply

The 200-watt power supply used for the Ion product line has reached end of life from the vendor. In our continued commitment to product quality, Merit has sourced a 300-watt power supply as a replacement that will retrofit into existing cabinets. These supplies have started shipping in our Ion-based products, and will also be used to satisfy both warranty replacements on Ion products, as well as out of warranty parts sales. Additionally, we have designed a Force eVo, Elite Edge and eVo Walleto service kit that utilizes the new 300-watt power supply.

To order any of these kits, please contact your local distributor. The part numbers for all of these items are:

Ion eVo, Elite Edge and eVo Walleto Power Supply Kit: **SB0539-02**

Ion Aurora Power Supply Kit: **SB0539-01**

Force eVo, Elite Edge and eVo Walleto Power Supply Kit: **SB0540-01**

If you have any questions, please contact Merit Customer Service and Technical Support by phone at 215-826-1400 or 800-523-2760, or by e-mail at TechCenter@meritgames.com.
