

Prize Farm Software Installation Instructions

1. Unlock and open the top door of the unit (see Figure 1).
2. Unlock and open the bottom door of the unit (see Figure 1).

FIGURE 1 – PRIZE FARM CABINET DETAILING LOCK LOCATION

3. Flip the **TEST** toggle switch located in the middle-rear of the top section, just to the right of the power supply. Look for the label reading **TEST** at the back-center of the cabinet.
4. In the bottom section, press the eject button on the DVD drive, place the update disc into the tray, and close the tray.
5. Lower the top door and press **Load Update** at the top-right of the screen. Allow the update to run. The system will reboot automatically during this process.
6. When the update is complete, remove the disc from the DVD drive, and then close and lock the bottom door. Close and lock the top door, and the software update process is complete.
