

## **RoHS Compliance Certification**

AMI Entertainment certifies that games all manufactured after July 1, 2006 and sent to the European Union are in compliance with Directive 2002/95/EC of the European Parliament, known as the Restriction of Hazardous Substances in Electrical and Electronic Equipment (RoHS). AMI holds RoHS certificates from their suppliers for every part in the assembly of their current Ion product line, which consists of eVo, Elite Edge, eVo Walette, Aurora, Rx, and Fusion games.

All games shipped to the EU after July 1, 2006, have “RoHS COMPLIANT” marked on the unit’s serial number label, indicating the products’ strict adherence to the guidelines set forth in the RoHS Directive. The manufacture date can be determined from the first 6 digits of the game serial number in the following format: MMDDYY.
