FIELD BULLETIN

- Issue:** There may be some issues when playing the game Little Shop of Treasures on Megatouch systems running 2010 software.
- Games Affected:** Ion systems running software versions V32.03, V32.04, and V32.11.
- Symptoms:** When playing Little Shop of Treasures on a game, calibration drift may prevent some objects near the edge of the screen from being selected, thereby affecting game play.
- Solution:** AMI is issuing a free patch to correct this issue.
For MegaNet-connected games: There is no need to do anything to your machine itself. The patch to resolve this issue will be sent to your connected machines.

If your game is not MegaNet-connected: You can download the patch from our Web site and install it on your game with a USB pen, CD, or DVD. To download the patch, visit www.amientertainment.com > [Support](#) > [Megatouch Support Center](#) > [Software Downloads](#).

Remember: AMI also offers MegaNet Core, which is a *completely free* connection to the MegaNet servers that automatically downloads this and any other corrective patch directly onto your registered machines. There'll be no need to do anything on your end, so get connected today!

If you have any questions please contact AMI Technical Support by phone at 800-523-2760 or 215-826-1400, or by e-mail at TechCenter@amientertainment.com.
