Re: Texas Hold 'Em Disc For Force Games

Upon installation of the Force Texas Hold 'Em disc, the available games in the Cards and New Games categories will return to the factory default settings. If you have manually changed the Game Setup Screens in these two categories (added or removed games from the categories), you will need to manually add or remove them again after installing this disc. Follow the instructions below to change the settings:

1. Press the SETUP button.
2. Touch the **Games** button on the Main Menu Screen.
3. Touch the **Games Setup** button on the Games Screen.
4. Touch **Cards** to enter the Card Menu Setup Screen. Then customize the available games in the Card category by touching a game and adding it to the menu, or removing it from the menu.
5. Touch the < button to return to the Games Setup Screen.
6. Touch **New Games** to enter the New Games Menu Setup Screen. Customize the available games in the New Games category by touching a game and adding it to the menu, or removing it from the menu.
7. Touch the **X** button and confirm that you want to exit and save your changes.

For more detailed information regarding the Games Menu, please see your owner's manual.

If you have any questions, please contact Merit Customer Service and Technical Support by phone at 215-639-4700 or 800-445-9353, or by E-mail at TechCenter@meritind.com.
