

IMPORTANT!

QUICK SET UP GUIDE

Every FireFly must be registered with MegaNet® in order for it to function.

PLEASE FOLLOW THE STEPS BELOW TO REGISTER YOUR FIREFLY

STEP 1 Sign the FireFly Contract

If you've already completed the enclosed FireFly contract and you have been authorized to operate FireFly machines, please skip to STEP 2.

- » Complete and sign the enclosed FireFly Contract and fax it to AMI at 215-689-3137.
- » AMI will contact you within one business day, and you'll be given a username and password to log in to your Operator MegaNet Web Site – www.accessmerit.com. (If you're already an existing MegaNet customer, the ability to register FireFlies won't be available until your FireFly Contract is processed by AMI.)

STEP 2 Register Your FireFly

- » On your PC, go to www.accessmerit.com and select your market from the drop-down menu.
 - » Type your username and password into the appropriate fields to log in.
 - » Select "Register" from the "Locations" drop-down menu at the top of the screen; then enter the information for the location where the FireFly will be placed. If you are registering the FireFly to an existing location, this step can be skipped.
 - » Select "Register" from the "Machines" drop-down menu at the top of the screen; then enter the FireFly's information.
- If you don't have access to a PC, you can also register a FireFly and its location from within the Connection Wizard. Please see the "Megatouch FireFly Installation & Owner's Manual" for more details.*

STEP 3 Set Up Your FireFly

- » Set up the machine as described in the "Megatouch FireFly Installation & Owner's Manual".
- » After the FireFly has been registered and set up in the location, the system needs to connect to the MegaNet server in order to become operational. Please see the "Owner's Manual" for more details.
